1. Complete the program that you previously scripted (Course Project #1) and for which you shot and captured video (Course Project #2).

2. Before compressing the program, be sure to master a copy onto digital tape.

3. Compress the program, deliver it, and submit it via CD, DVD, or online.

4. If your initial goal was to deliver your program to digital tape, you still must go through the process of compressing your program and submit a copy of it via either CD, DVD, or online.

5. If your initial chosen delivery method was digital tape, the final tape copy of the program must also be submitted.
